## **Army Corp of Engineers “Blue Roof” Services Moving to Founders Building**

The “Blue Roof” emergency roof repairs popping up all over town are being provided by the Army Corp of Engineers in conjunction with FEMA. This service includes the materials and installation, and is available free of charge to homeowners from the greater Slidell area, including Pearl River and Lacombe.

Homeowners who wish to take advantage of this service must submit an application requesting the temporary roof protection service. Army Corp of Engineer professionals are accepting applications at the Slidell Memorial Founders Building on Robert Blvd., Monday through Friday from 8 a.m. to 4:30 p.m. Homeowners who wish to register should use the back entrance of that building. The service was previously offered at St. Margaret Mary Church.
